LinkedIn: [linkedin.com/in/manojramesh](https://www.linkedin.com/in/manojramesh)

PROFESSIONAL SUMMARY

Results-driven Python Full Stack Developer with hands-on experience building dynamic web applications using Python, Django, PHP, HTML, CSS, JavaScript, and MySQL. Proficient in both front-end and back-end development, delivering responsive, user-friendly interfaces and scalable backend systems. Experienced with Flutter mobile development, RESTful API integration, UI/UX design (Figma), and version control (Git/GitHub). Certified in Python Full Stack Development, Cisco CCNA, and UI/UX Design.

TECHNICAL SKILLS

Languages: Python, JavaScript, Dart, PHP, SQL

Frontend: HTML5, CSS3, Bootstrap, Responsive Design, Flexbox, Media Queries

Backend: Django (Python Framework), RESTful APIs

Databases: MySQL, SQLite

Full Stack: Python development, PHP development

Tools & Platforms: Git, GitHub, Figma, OpenCV, MediaPipe, Tkinter

Concepts: UI/UX Design, MVC Architecture, CRUD Operations, Authentication, Data Analysis, Cybersecurity Basics, AI & ML

WORK EXPERIENCE

Mobile Application Developer (Intern) | Wizinoa

Jun 2024 – Aug 2024

- Developed cross-platform mobile applications using Dart and Flutter, ensuring compatibility on Android and iOS.
- Designed responsive UIs using Dart widgets with smooth animations and intuitive navigation patterns.
- Integrated RESTful APIs to fetch and manage remote data, implementing efficient application state management.
- Collaborated with the design team to translate Figma prototypes into production-ready mobile code.

Technology Job Simulation Intern | Forage

Jan 2024 – Feb 2024

- Completed a full technology lifecycle simulation covering coding, data analysis, development, and cybersecurity.
- Developed a data unification algorithm and identified security breaches through comprehensive log analysis, improving data integrity and incident response.
- Designed a data visualization dashboard for client reporting using structured datasets.

Front-End Developer (Intern) | WebGapp

Jun 2023 – Jul 2023

- Designed and developed responsive UIs using HTML5 and CSS3, ensuring cross-device compatibility.
- Utilized Bootstrap to rapidly prototype layouts and maintain design consistency across projects.
- Integrated PHP scripts to render dynamic content and handle user form submissions.
- Implemented cybersecurity best practices and conducted data analysis throughout the development lifecycle.

PROJECTS

Job Portal Web Application | Technologies: Python, Django, HTML, CSS, Bootstrap, JavaScript, MySQL, SQLite

- Built a full-stack web application with user registration, login, course browsing, enrollment, and course detail views.

- Resolved Django authentication and URL routing issues; fixed database migration errors using makemigrations and migrate commands.

Virtual Mouse Using Hand Gesture Recognition | Technologies: Python, MediaPipe, OpenCV, MySQL

- Developed a webcam-based virtual mouse system enabling cursor movement, left-click, and right-click via hand gestures.
- Optimized hand detection accuracy by tuning confidence thresholds and camera conditions; applied smoothing to reduce cursor jitter.
- Refined landmark distance calculation algorithms to accurately distinguish distinct gestures, improving recognition reliability.

Hospital Management System | Technologies: Python, Tkinter, MySQL

- Built a desktop application to manage patient records, doctor data, and appointments with login/signup authentication.
- Implemented full CRUD operations and MySQL database connectivity with a Tkinter-based user interface.

Food Delivery App UI/UX Design | Technologies: Figma

- Designed high-fidelity UI screens and interactive prototypes covering login, restaurant listing, cart, and checkout flows.
- Applied UI/UX principles (accessibility, color contrast, typography) and iteratively refined layouts based on usability feedback.

Personal Portfolio Website | Technologies: HTML5, CSS3, JavaScript

- Built a fully responsive portfolio site using Flexbox and media queries with smooth navigation and form validation.

EDUCATION

Bachelor of Engineering – Computer Science Engineering

Fatima Michael College of Engineering and Technology

CGPA: 7.5 / 10.0
